

Communicate your way to a great experience with an integrated communications platform

Vonage CX Cloud Express is a CRM-integrated contact center solution designed specifically for mid-market businesses. This single-platform solution for unified communications and contact centers delivers a great customer and agent experience, while reducing IT complexity.

CX Cloud Express provides customers with a single, integrated offering - from carrier to application - simplifying their communications needs with a single partner for service and support with proven 99.999% reliability delivered on a carrier strength network.*

Benefits for the business

- Improved Customer Experience
- Enhanced Employee Experience
- Optimized IT Experience
- Reduced costs

Benefits for agents and supervisors

Answer, direct, and complete calls faster, while increasing productivity and improving customer satisfaction.

Managers get the tools they need to optimize service levels, while understanding training gaps and requirements by monitoring and recording agent calls. Advanced customizable reporting & wallboards shows caller activity, like abandonment rate, time to answer, wait time, call duration, etc.

No more IT headaches

Vonage's complete cloud contact center solution appeals to medium-sized businesses. The innovation is in our efficiency, so businesses can quickly install and change their operations as needed. Furthermore, Vonage's simplified service delivery and packaging ensures easy customer adoption, while providing a user-friendly and reliable solution.

Get setup. Scale quickly. Stay up.

Expand your network and add agents easily on our public cloud-based, highly available platform. By contrast, on-premises solutions require downtime for simple changes, such as updating time zones or installing new agent consoles. Vonage's contact center solution lets you update business call flows and routing rules in real-time without interruption.

Vonage CX Cloud Express
